

# Stages of the Ages

Professional Panel

**Preparation  
Creates  
Confidence**

## Legal Planning

Many traditional estate planning tools like Powers of Attorney and Trusts can help families plan for potential incapacity or long-term care needs.

## In-Home and Facility Care

Knowing the care options that exist in our community is critical to prepare for the possibility of this need. The PACE model is an incredible resource to blend both settings.

## Palliative Care & Hospice

Understanding the differences between palliative and hospice care is essential for making informed decisions about your or your loved one's healthcare journey. Fully grasping these distinctions ensures that you receive the most appropriate and compassionate care during challenging times.
